

Discover Microsoft Teams

ONE DAY WORKSHOP

Microsoft Teams is the digital hub that brings conversations, content, assignments, and apps together in one place. Promote equity and student voice with collaborative classrooms, connect in professional learning communities, and communicate with staff - all from a single experience in Office 365 Education.

- Create collaborative classrooms that save teachers time and better engage students in modern learning
- Connect educators in professional learning communities to improve teaching skills with built-in PLC Notebooks
- Streamline staff communication on institution-wide initiatives using custom Staff Notebooks
- Come together in a team for any team or project, like student groups or planning events

Participants will engage in a series of immersive learning activities that will build a strong understanding of how to use Microsoft Teams to improve instruction and meet the learning needs of their students.

MICROSOFT TEAMS IS THE ULTIMATE TOOL FOR DIGITAL TRANSFORMATION
